SISTEMA DI ALLINEAMENTO E SPAZIATURA

Brevetto Letterfix n. 1532B/81

MODALITA' D'USO

I pretagli sul retro della carta siliconata ne permettono la separazione parziale e la conseguente applicazione sulla superficie, mentre la parte inferiore resta protetta.

La parte inferiore della carta siliconata è provvista di fasce (allineatori) predistanziati che ne permettono una spaziatura facile e perfetta.

Togliere la parte inferiore della carta siliconata facendo aderire il resto dell'adesivo sulla superficie.

Grazie agli spazi accuratamente studiati secondo precise regole grafiche, gli adesivi che compongono la scritta risulteranno perfettamente allineati e spaziati.
